September 7, 2017

Dear Patient,

We are honored that you have chosen us as your healthcare provider. Today we have exciting news regarding your health management!

As we continue in our efforts to provide our patients with the highest quality of care, we are constantly looking for methods of working together with you to ensure that you are not only aware of, but also involved in the management and improvement of your health.

We are proud to inform you that our practice offers the opportunity to use the power of the web to track the most important aspects of your healthcare. The Patient Portal enables our patients to communicate with our doctors, nurses, and staff members easily, safely, and securely *via* the Internet.

Participating patients are given secure User IDs and passwords, enabling them to access the Portal to view their personal and private documents, including lab and diagnostic test results, educational information, billing statements, and other health information.

If you are interested in signing up for your Patient Portal we ask that you fill in the information below. Once this form is filled out, please bring the form to the office along with your Driver's License or Photo ID for verification. You will receive an e-mail from the office with your username and temporary password. For children over 18 years of age or spouses, we ask that they fill out a Patient Portal Agreement to have access to their Patient Portal.

Sincerely,  
Dr. Cammilleri and Staff
